The Honorable Mike Sullivan
Governor of Wyoming
State Capitol Building
Cheyenne, WY. 82002

Dear Governor Sullivan:

In compliance with the provisions of Chapter 39-1-304, Wyoming Statutes 1977, the Ad Valorem Tax Division of the Department of Revenue and Taxation submits its 1987 Annual Report. This report shows all taxable property in the State of Wyoming and the value of same in tabulated form.

Respectfully submitted

DEPARTMENT OF REVENUE AND TAXATION

Shirley Wittler

Shirley Wittler, Chairman
STATE BOARD OF EQUALIZATION

AD VALOREM TAX DIVISION

Warren A. Bower, Director

Robert St. Clair, Assistant Director

AD VALOREM TAX DIVISION

Objective

The Ad Valorem Tax Division is the administrative arm of the State Board of Equalization. The primary duties of the Ad Valorem Tax Division of The Department of Revenue and Taxation can be traced to Article 15, Section 11 of the Wyoming Constitution, which reads in part: "All property....shall be uniformly assessed for taxation and the legislature shall prescribe such regulations as shall secure a just valuation for taxation of all property, real and personal." This provision, and the many enabling statutes describe the Division's objective.

The State Board of Equalization, together with the county assessors, is charged with the responsibility of carrying out the state's equalization function, and the administration of the Ad Valorem tax statutes to ensure that assessments are uniform and equal within each county and between the various counties.

The Ad Valorem Tax Division is responsible for accumulating the necessary data for the Board of Equalization's use in determining the State General Fund and the State School Foundation Levy requirements.

The majority of the assigned duties of the ad Valorem Tax Division are found in the statutes relating to the State Board of Equalization, the Tax Commission and the Department of Revenue and Taxation. The statutes generally define three major categories of properties, "exempt", "state" assessed and "locally" assessed. Relative to the state assessed property; the Division gathers, compiles and analyzes information relating to the valuation of all mineral production, oil and gas production, pipelines, railroads, airlines, public and private utilities, telephone and telegraph companies, radio-telephone companies, and private railroad car companies. This information, along with the Division's appraisals are presented to the Board for its consideration in determining the fair and equalized assessed value of all state assessed properties. The Division then notifies all parties of interest. After the appeal period, these values are certified by tax district to the county assessor and added to the locally assessed values to form a basis for the levy of ad valorem taxes in various taxing districts in the respective counties. State assessed properties now represent 69.6% of the total State Ad Valorem Tax Base. This reduction of 7.9% from the 1986 percentage is the result of reduced mineral values.

The Division cooperates with county assessors in preparing recommendations and guidelines for the uniform assessment of locally assessed property. In addition, Division staff appraisers perform on-site inspections of the State's large industrial properties; review applications for exemption of pollution control and fire extinguishing equipment; and prepare an estimate of the current value of these properties for the county assessor.

Other Division activities include: compilation and maintenance of complete and current records of oil and gas production by counties; preparation and

distribution of an Annual Report relating to taxable valuation of property in the State by county and property classification; planning and conducting continuing education courses for county assessors; meeting with assessors and other county officers on assessment matters; conferring with county assessors regarding the interpretation of the assessment and taxing statutes; assisting county assessors with the appraisal of the more difficult or unusual properties; providing instruction and supervision to county assessment personnel in the collection of construction costs and other appraisal data necessary to estimate the assessed value of all taxable property in the State.

Statewide Reappraisal Project

The 1984 regular session of the Forty Seventh Legislature, under Chapter 70 Property Reassessment, amended W.S. § 39-2-301 adding Section 2 relating to property taxation and appropriated ten million dollars for a reappraisal of selected taxable property and provided contract conditions. Of the total appropriation by the legislature, five million dollars was actually authorized for the project. An original contract was entered into between the State and Professional Appraisal Company, Inc. (PAC) of Arlington, Texas, in October 1984, to appraise urban and suburban properties, commercial and light industrial properties, farm and ranch improvements, farmstead land and mobile homes. An addendum to the original contract was executed in October 1985 with a second addendum dated May 30, 1986. Under the contract, as modified by the addenda, PAC agreed to complete the reappraisal project as soon after September 1, 1986, as may be reasonably accomplished without adversely affecting or compromising the quality and reliability of the mass reappraisal for use by the State, but in no event later than March 1, 1987. PAC was unable to complete the project timely and the State notified PAC and its bonding companies on March 3, 1987, that the contractual obligations had been defaulted. Subsequent to default the Surety Bonding Companies employed The Ebert Corporation (TEC) to complete and correct the work of PAC. The completion contract specifies a final completion date for the project of December 31, 1987, with an error rate not to exceed 10%. The counties have been divided into seven clusters with a specified completion date for each cluster. As of August 1987 three clusters had been completed and a fourth cluster was in progress. The Ad Valorem Division Staff is auditing and preparing a report on each cluster to measure performance against certain standards prior to acceptance by the State. Those performance standards are as follows:

1. A reconciliation of the assessment rolls by comparing the county assessors' parcel inventory with the parcel inventory on the Computer Assisted Mass Appraisal System (CAMA) effective July 1, 1987. Ninety-five percent of all valid data elements tested must reasonably match.

2. Verification that one hundred percent of all valid and usable data received from the county assessors has been entered into the CAMA System, including maintenance data received through July 1, 1987.

3. Verification of the accurate collection of all data and factors that significantly affect value through the selection of a random stratified sample. The error rate for data collection verification shall not exceed 10%.

4. The use of the sales ratio study stratified by neighborhood, age, class, and value to determine acceptable Coefficients of Dispersion. The Coefficient of Dispersion (COD) shall be 15% or less for all properties except for lower priced properties in declining areas or on unimproved lands on which the Coefficient of Dispersion shall be 20% or less.

When the audit reports are completed, TEC has an opportunity to take corrective actions to remedy problem areas.

Installation of computer terminals in each Assessor's Office to link them to the State computer system, where the data base on each property is stored, began on July 28, 1987, in essentially the same order as appraisal completion is scheduled. The computer function will allow annual updates to reflect market conditions across the State. Installation will continue through September when all units are scheduled to be in place in the twenty-three (23) counties. The 1987 Legislature authorized and funded this worthwhile effort and a test program in Albany County Assessor's Office has been in place since May. TEC will conduct classes for Assessors and staff in data entry for the system in late August. County Assessors were authorized by the Legislature to correct factual errors in computer data under rules approved by the State Board of Equalization.

The mass reappraisal project represents the first time in the history of the State that independent companies have been utilized to value all property in an effort to arrive at equalization in all counties simultaneously. The Legislature intended implementation of these values to begin in 1988. However, the Governor may delay implementation to 1989 upon recommendation of the Joint Revenue Interim Committee.

The Thomas Y. Pickett Company, Inc., of Dallas, Texas, completed its contract for the appraisal of 134 large industrial properties by September 1, 1986, as scheduled. The resulting appraised values were updated for 1987 and, in most instances, these updated values were put on the county rolls for the 1987 tax year.

After consultation with an outside expert during 1984 and 1985, appraisal methodology for the state assessed properties was developed. These methods were essentially adopted and included in "Rules and Regulations of the Wyoming State Tax Commission", Chapters XXI and XXII, approved in 1986 after public hearings. State assessed properties are appraised annually by Division personnel using appraisal methods approved by the aforementioned rules and regulations. Appeals of state assessed property values are heard directly by the State Board of Equalization with provision for further legal remedies through the State Court System.

Statewide Mapping Program

Under the direction of the Ad Valorem Division, a comprehensive mapping program has been underway since it was authorized by the 1986 Legislature. As formulated, the mapping system will allow county assessors to locate and describe every parcel of land within their respective counties. Lincoln, Unita, Fremont, Natrona, Weston, Park, Albany and Campbell Counties have employed professional drafts-persons to assist their mapping program. Hot Springs, Johnson, Goshen, Carbon, Laramie, Crook, Sublette, Niobrara, Converse, Washakie, Big Horn and Teton are using county personnel to assist in maintaining their mapping system. In these instances some delays in maintenance occur due to the lack of personnel. Problem areas in mapping still require the Division's assistance. County response to the mapping system has been most gratifying.

Considering the size and nature of this project, it is cost effective, and has the potential to provide a framework which will continuously support comprehensive and readily available land related information at the parcel level.

Valuation of All State Assessed Property - 1987

This program has as its objective the valuation of all property required by law to be assessed at the state level. The accomplishments of this program can be best shown by showing the types of property assessed, the number of companies and the total valuation for the past year.

No. of Companies or Producers	Type of Company or Production	Assessed Value
751	Oil	$1,440,262,656
231	Natural Gas	889,888,628
28	Coal	1,111,486,981
8	Bentonite	6,730,553
99	Sand & Gravel	2,825,301
5	Trona	105,566,325
2	Uranium	18,019,557
28	All Other Minerals	6,768,228
24	Liquid Pipelines	44,869,891
15	Gas Pipelines	75,837,080
13	Municipal Utilities	2,490,211
25	Private Utilities	162,360,863
10	Airlines	1,303,969
14	Radio-Telephone	350,381
22	Rural Electric	105,560,038
21	Telephone & Telegraph	73,445,790
4	Railroads	111,300,901
		$4,159,067,353

The foregoing assessed values are certified to county assessors where the property is located or where the minerals are produced to be entered on the local tax roll.

Assistance to Local Assessors

The Division provides on-going assistance to county assessors to help resolve administrative and valuation problems. This assistance is provided on an almost daily basis by telephone and correspondence to respond to requests for information and/or assistance. Locally assessed properties account for 30.4% of Wyoming's total taxable valuation and amounted to $1,813,622,769 in 1987. The Division contributes directly to the determination of this taxable valuation through its program of assistance to county assessors. A total of 150 large industrial facilities were appraised by Division personnel resulting in a current value of $2,284,501,819 and an assessed value of $262,717,709 using an 11.5% assessment ratio. Part of the valuation process involves on-site inspections, adjustments for annual changes, and a determination of allowable exemptions for pollution control, fire control equipment and related facilities. During 1986 and the first half of 1987, the Division audited 2400 residential, rural and commercial properties in connection with the statewide reappraisal program.

During July and August of 1986, five regional schools were held for assessors and staff at Casper, Gillette, Worland, Kemmerer and Cheyenne. One additional school was offered at Cheyenne during January 1987, primarily for the benefit of new assessors and staff. Total attendance at these schools was 111 persons. The schools were designed to provide a comprehensive training program for assessors and their staffs in the workings of the new CAMA appraisal system. This is the system that is being used in the state wide reappraisal program. Attendance at one of the school sessions fulfills the statutory requirement for continuing education.

Problem Areas

The Division is now appraising directly 1,517 companies including private car companies plus 150 industrial facilities. These properties must be identified by situs and assessed values certified to assessors in one or more of the 356 individual taxing districts. These districts include: the 23 counties, 96 municipalities, 48 school districts, 55 fire districts, 43 cemetery districts, 18 recreation districts 35 water and sewer districts, 11 hospital districts, 1 museum district, 9 solid waste districts, 2 water conservation districts, 26 improvement and service districts, 2 health care district, 7 college districts, and 4 areas of separate bonding levies. Special districts were created by the legislature to authorize taxes in excess of constitutional limitations imposed on counties.

The State Assessed Property section is attempting to develop an auditing capability. Two auditor-appraiser positions were approved in 1986 and one

position was filled before the hiring freeze was imposed. Continuing efforts are being made to obtain approval for filling the other position. It is believed that a minimum of two auditors are necessary to conduct an effective audit program. The Division believes an audit program will have definite revenue positive benefits. Experience in other states indicates revenue benefits of from eight (8) to five (5) times the audit expenditures.

As a result of the adoption of Chapter XXI of the Wyoming Tax Commission's Rules and Regulations, reporting of gross mineral production (not just sales) is now required. Separate reporting of take-in-kind mineral production (particularly crude oil) is now required for all interest owners as well as operators, with ultimate responsibility for payment of severance and ad valorem taxes falling to the take-in-kind interest owner. These two requirements - reporting year-end inventories and production taken-in-kind - have raised many problems, increased the number of reporting entities and imposed a greater work load on Division personnel. It is hoped that many of these problems experienced in this transition year of the new mineral rules and regulations will be solved before the next reporting year.

The Division is experiencing problems with retaining personnel qualified to operate and maintain the CAMA appraisal system. Essential to the successful operation of the mainframe CAMA software is continuity of well trained personnel who can integrate the statewide input of maintenance data to make the system work. At least a part of the problem is the inability of the Division to offer competitive salaries to attract qualified personnel.

Because the Division has over the years performed an increasing amount of the appraisal workload which could be done at the county assessor level, such as industrial facilities, residential and commercial improvements, etc., the Division is now experiencing a shortage of personnel to perform all of its required functions. The Division is faced with the dilemma of cutting back on appraisal work for the counties in order to perform important functions - such as training county personnel, auditing county assessors functions for equalization purposes, preparing assessors handbooks, monitoring statewide reappraisal and other assessment standards functions - or increasing the size of its staff. Under present economic conditions, increasing the size of the staff doesn't appear to be a viable alternative.

Inflation affects all property differently. Generally speaking, the value of any property is based on a buyer's opinion of the present worth of future benefits derived from ownership. Existing utility property values tend to be rather stable since regulatory agencies only permit them to earn on book value (depreciated historical cost). Unregulated property, such as housing, tends to increase or decrease in value as rentals change. This difference presents two entirely different appraisal problems and two entirely different training programs for Division personnel.

Legislation

The Forty-Eighth Legislature enacted the following laws directly affecting the Ad Valorem Tax Division:

Chapter 2 - City or Town Annexations

AN ACT to amend W.S. 15-1-415(b)(ii) and 15-1-418(b) relating to annexations of land to cities or towns; specifying filing requirements for maps of areas to be annexed; specifying surveyor and survey requirements for plats involving subdivided additions; and providing for an effective date of May 22, 1987.

Chapter 29 - CO_2 Exemption

AN ACT to amend W.S. 39-6-302 by creating a new subsection (k) relating to mineral severance taxes; allowing severance taxes on CO_2 gas to be a direct credit against severance taxes on oil produced by injection of the gas; and providing for an effective date of May 22, 1987.

Chapter 34 - Exemption for Unsold Gas

AN ACT to amend W.S. 39-2-202(d) relating to taxation; declaring that specified flared or vented gas or natural gas consumed to produce crude oil or natural gas on the same lease or unit from which produced has no value and is exempt from taxation; and providing for an effective date of January 1, 1987.

Chapter 51 - Handicapped Exemption

AN ACT to amend W.S. 39-1-201(a)(xxxi) and by creating a new paragraph (xxxii) relating to property tax exemptions; exempting improvements to residential property making entrance to or common facilities within the property accessible to a handicapped person; and providing for immediate effectiveness.

Chapter 53 - Downtown Development Authority

AN ACT to amend W.S. 15-9-202(a)(v), 15-9-204(a) and 15-9-217 by creating new subsections (b) and (c) relating to municipalities; authorizing the creation of a downtown development authority by petition without an election; providing for special assessments following approval by specified property owners within the authority providing permissible uses of special assessment revenues; and providing for immediate effectiveness.

Chapter 63 - Reappraisal Oversight

AN ACT providing for legislative review of the implementation of the mass property tax reappraisal; providing for implementation

of values on January 1, 1988, unless delayed by the governor upon recommendation of the Joint Revenue Interim Committee; and providing for immediate effectiveness.

Chapter 75 - Parcel Identification

AN ACT to amend Sections 1 and 2, Chapter 119, 1986 Session Laws of Wyoming relating to appropriations; Eight hundred forty-four thousand dollars ($844,000) shall be appropriated to the Department of Revenue and Taxation as follow: four hundred sixty-one thousand five hundred dollars ($461,500) is to be expended for statewide mapping and parcel identification numbering; three hundred thirty-two thousand five hundred dollars ($332,500) shall be expended for additional support and data services including software enhancements, implementation and training relative to the Wyoming Appraisal Manual and the CAMA system; fifteen thousand dollars ($15,000) shall be expended for a feasibility study of data entry equipment to be placed in the county assessors' offices; and providing for immediate effectiveness through March 1, 1988.

Chapter 76 - Appropriation - Department of Revenue and Taxation

AN ACT to appropriate from the General Fund to the Department of Revenue and Taxation, the sum of three hundred fifty-three thousand and ninety dollars ($353,090) or as much thereof as is necessary, for the installation of computer equipment and data processing capabilities to provide the 23 county assessors' offices access to the Computer Assisted Mass Appraisal System in the state mainframe computer; and providing for an effective date of May 22, 1987.

Chapter 97 - Coal Equity Tax Act of 1987

AN ACT to amend W.S. 39-6-302 by creating new subsections (m) through (o) relating to excise taxation on extraction of minerals; imposing an exemption on a portion of the gross product value of coal from future taxation; defining the class of transactions subject to the exemption; providing a penalty for mutual rescission and reexecution of existing coal sales agreements; providing for the distribution of funds subject to the exemption; and providing for an effective date of April 1, 1987.

Chapter 165 - Property Reappraisal

AN ACT to amend Section 2, Chapter 70, Session Laws of Wyoming 1984, by crating a new subsection (e) relating to real property reappraisal; providing the reappraisal may be adjusted or corrected by the county assessor of that county pursuant to the rules of the State Board of Equalization; and providing for an effective date of May 22, 1987.

Chapter 167 - Tax Assessment - Appeals

AN ACT to amend W.S. 39-6-410(e) and 39-6-510(f) relating to taxation; providing that in certain cases the court to which a tax assessment decision is appealed may stay enforcement of the tax pending the appeal; and providing for immediate effectiveness.

Chapter 204 - Average Daily Production

AN ACT to amend W.S. 39-6-301(a)(i) relating to the definition of average daily production; and providing for an effective date of January 1, 1987.

Chapter 216 - Mass Reappraisal

AN ACT relating to the mass reappraisal of property in Wyoming; providing terms for completion under specified conditions; authorizing the State Board of Equalization to use certain funds for completion of the project; directing the use of reappraisal values under specified circumstances; and providing for immediate effectiveness.

Chapter 241 - Exemption From Severance Tax

AN ACT to amend W.S. 39-6-301(a) by creating a new paragraph (vii) and renumbering paragraph (vii) as (viii) and 39-6-302 by creating a new subsection (p) relating to the severance tax on oil and gas; defining wildcat well; exempting oil and gas produced from wildcat wells drilled and completed within a certain time period from specified severance taxes for a period of four years; requiring a report from the oil and gas conservation commission to the legislature; and providing for immediate effectiveness.
